Anglo French offensive in the Somme region, has again become the storm center on the western battle front. The French forces have taken the offensive on the right bank of the Meuse and now hold the Thiaumont work and the greater part of the village of Fleury, according to Paris.

The Thiaumont work, already the scene of many desperate combats, was twice in French hands during twelve hours on Friday. The forces of the German crown prince fought tenaciously, driving the French from the work once, but losing it again. German counter attacks were of no avail, says Paris, and the work remained in the possession of the French.

Fleury, which changed hands Thursday after the French had succeeded in taking it, is again almost entirely occupied by the French. Fleure fighting still continues in and around the village. German wounded prisoners taken in the Verdun fighting number 400.
